**Listing of Claims:**

Claims 1-12. (Canceled).

Claim 13. (Previously Presented) A vascular graft comprising:  
a core zone comprising a PET fabric, said core zone having a first surface and a second surface opposing said first surface, wherein the first surface is a blood interface surface; and  
a first non-porous coating disposed on said first surface and permeating into at least a portion of said core zone, such that said at least one portion of said core zone is impermeable, wherein said first coating comprises at least one polyurethane; wherein the coating comprises a polyurethane urea.

Claim 14. (Previously Presented) A vascular graft comprising:  
a core zone comprising a PET fabric, said core zone having a first surface and a second surface opposing said first surface, wherein the first surface is a blood interface surface; and  
a first non-porous coating disposed on said first surface and permeating into at least a portion of said core zone, such that said at least one portion of said core zone is impermeable, wherein said first coating comprises at least one polyurethane; wherein the coating comprises a polyetherurethane urea blended with a siloxane containing a surface modifying additive.

Claim 15. (Canceled).

Claim 16. (Previously Presented) A vascular graft comprising:  
a core zone comprising a PET fabric, said core zone having a first surface and a second surface opposing said first surface, wherein the first surface is a blood interface surface; and
